

A faster, cleaner, more organized way for agents to manage offers

RLTRsync's Offer Management system gives agents a simple, modern workflow for collecting, reviewing, and organizing offers.

Everything is submitted electronically, tracked automatically, and stored in one place. No more email chaos, missing documents, or late-night follow-up confusion.

What Offer Management Does

The system replaces scattered emails and PDFs with a structured, professional submission process.

- Lets cooperating agents submit offers through a clean online form
- Collects all required documents and details in a consistent format
- Stores all offers in one dashboard, organized by property
- Automatically notifies the listing agent when a new offer arrives
- Lets agents compare offers quickly without digging through emails
- Provides clean records for compliance, auditing, and negotiation
- Keeps everything time-stamped, searchable, and easy to revisit

Agents stay organized, sellers get clarity, and deals move faster.

Why Listing Agents Choose It

- No more hunting through email threads
- All offers look the same, making comparison simple
- Documents are never forgotten or missing
- Follow-up is easier because everything is in one place
- Sellers appreciate the professionalism and transparency
- Reduces mistakes and keeps everyone accountable
- Works beautifully on mobile during showings or travel

Offer Management removes the stress and confusion from the busiest part of the transaction.

Why Brokerages and MLS Partners Support It

- A standardized offer submission process across all listings
- Improved compliance with clean, complete offer packets
- Better record-keeping for legal and auditing purposes
- Higher agent productivity
- A smoother experience for cooperating agents
- Increased professionalism at the heart of every deal

Offer Management makes the entire organization look more coordinated and more modern.

The Result

Offers come in cleaner.

Agents review faster.

Sellers understand their options immediately.

Everyone works more professionally.

The entire transaction becomes easier to manage from start to finish.
